Topics covered

This is our inaugural episode for the OzLeisure Traveller podcast series; a show which is designed to assist Australians travelling overseas. The aim of the series is to inform the audience as much as possible as to things to see and do in countries around the world.

For most of the episodes, we will be talking to the tourism boards of countries around the world as they have the most in-depth information about their area of coverage.

We will be trying to speak to tourism boards in all countries (and for larger countries, each region). We'll be starting with the UK and Ireland, followed by Europe, USA and Canada and all other countries in the world as much as possible.
